# VISCONTOUR® PURE PERFECTION

## 1. PURE deep-acting

Viscontour® deep-acting hyaluronic acid penetrates into **the deep layers of the epidermis**. For a fast and long-lasting hydration lifting effect.

## 2. PURE purity

Nearly all Viscontour® products contain highly concentrated hyaluronic acid. Among other things, they contain **no skin-irritating additives**, such as perfumes, colourants, mineral oils, parabens and silicones.

## 3. PURE protection

The high purity of Viscontour® products is protected by our **smart** packaging options (airless pots, airless dispensers and single-dose ampoules).

## 4. PURE selection

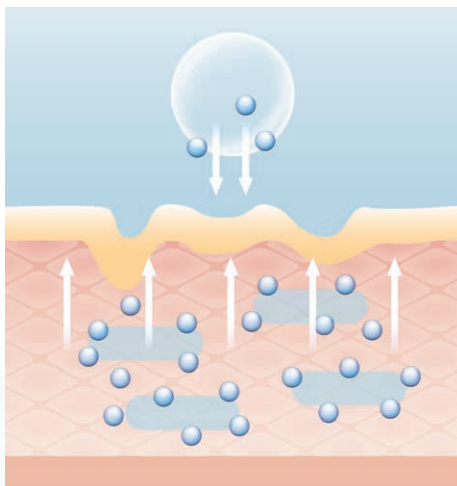

We only offer you Viscontour® products which truly meet your skin care **needs**. All Viscontour® products are designed **to complement each other**.

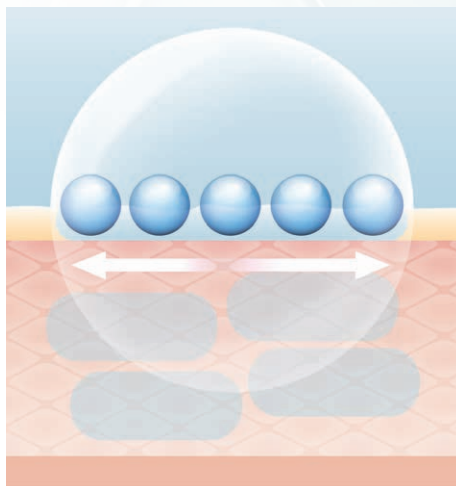

Dermatologically tested. For sensitive skin.

# VISCONTOUR® DEEP-ACTING HYALURONIC ACID

**The triple anti-ageing principle of Viscontour® :**  
**Pads out, smooths the skin and retains moisture**

**1.** The smaller hyaluronic acid molecules penetrate into the deep layers of the epidermis, fill the moisture pockets to hydrate and **pad out** the skin from within.

**2.** The large hyaluronic acid molecules remain on the surface of the skin, keeping it **smooth** and **hydrated to prevent** moisture loss.

Viscontour® – for a fast and long-lasting hydration lifting effect
